# About Us

Established in the year **2005**, at Hyderabad, (Andhra Pradesh, India), we **"Unique Power Systems"** are a leading organization engaged in trading and supplying a variety of **Electrical** and **Electronics Items**. We have in store a technically superior range of Transmission Line, Substation, Insulator, Vacuum Circuit Breaker, Generator, Transformer, Speed Breakers, Flexible Cable and MCCB. As a part of our business policy, we source these products from reputed vendors of the industry, who make use of latest technology and superior quality raw materials in developing these products. In addition to the above mentioned products, we also undertake **Annual Maintenance Contracts** for the maintenance and repairing of these systems. To efficiently handle all our business operations, we have recruited experienced and qualified professionals, who hold versatile knowledge about this domain. They are well informed about the current market dynamics and enable us to offer the best products and services to our customers. Owing to their dedicated efforts, we have earned a respectable share in the industry. The affairs of our organization are handles by **'Mr. Subbarao Ramisetty'**, who has been working in this domain for years. His rich vision, sound marketing strategies and exceptional marketing skills have helped us in carving a special niche for ourselves in today's competitive business scenario. **We are majorly looking quires from Andhra Pradesh, Karnataka, Kerala and Tamil Nadu.**
